

Service Level Agreement (SLA)

GroupCall Messenger SLA

By
Cantium Business Solutions Limited

Agreement Overview

This agreement represents a Service Level Agreement (“SLA” or “Agreement”) between Cantium Business Solutions Limited and Customer for the provisioning of an ICT Managed Service. It is designed to support and sustain the service throughout the duration of the contract.

This Agreement will continue throughout the duration of the contract, unless revised by Cantium Business Solutions through periodic review to ensure compliance with legal and commercial developments.

This Agreement outlines the parameters of all services covered, as understood by all parties and is accepted in accordance with Cantium Business Solution’s General Terms of Sale (which can be found at www.cantium.solutions).

Together with the Order and the General Terms of Sale, this Agreement provides a binding contract between both parties.

If it is found that there is an inconsistency between this Agreement and the General Terms of Sale, then detail as defined within this Agreement will take precedence.

Purpose & Objectives

The purpose and objectives of this Agreement are to:

- Define the service / product that the Customer is purchasing
- Provide clear statements as to service ownership, accountability, roles and/or responsibilities.
- Present a clear and concise description of service provision to the Customer.
- Describe the service parameters against which the service will be measured and reported.

Stakeholders

The primary stakeholders associated with this Agreement are:

- Service Provider: Cantium Business Solutions
- Customer: Customer (“Customer”)

Cantium Business Solutions reserve the right to support this contract through third party sources where appropriate. Such third parties employed by Cantium Business Solutions may be changed from time to time at their discretion.

Periodic Review

This agreement is valid for the term of the contract as outlined in the Order Form and will continue unless revised by Cantium Business Solutions to ensure compliance with legal and commercial developments throughout the duration of the contract.

Once amended the Agreement will be communicated to the primary stakeholders through publishing on Cantium Business Solution’s website.

Service Agreement

The following detailed service parameters are the responsibility of the Service Provider in the ongoing support of this Agreement.

Service To be provided

The following Services are covered by this Agreement:

- GroupCall Messenger Application Support
- *Identification and where possible, correction of software and user errors affecting MIS integration with GroupCall Messenger.
- Liaise with GroupCall whenever a technical fix is required to rectify an issue.
- All other changes will be chargeable.

* Applies only to MIS under Cantium contract for support

Service Management

Service Desk	<p>The provision of a Service Desk function providing an interface between ICT users of the Customer and the ICT department of Cantium. Contact channels will include telephone, web chat and Service Portal.</p> <p>The Service Desk will be available from 08:00 to 17:00, Monday to Friday excluding public holidays.</p> <p>The Service Desk will manage incidents and requests (an incident is any unplanned interruption to service, such as an error preventing successful logon to a laptop. A request is classified as any call for information or advice, or for a standard change, or access to an IT service).</p> <p>Customers who log a call with the Service Desk will be informed of progress of requests for service throughout the lifecycle of the request. This will include:</p> <ul style="list-style-type: none"> • Providing Customers with resolution advice as appropriate • Verifying successful completion of requests for service with customers • Monitoring customer satisfaction on the Services as provided by the Service Desk • The Customer will be provided with an escalation path for incidents and requests in line with agreed service targets
Incident Management	<p>An incident management function will be available. The purpose of incident management is to restore service operation as quickly and as efficiently as possible, minimising disruption to service. This includes:</p> <ul style="list-style-type: none"> • Pro-active detection and recording of incidents • Classification and initial support • Investigation and diagnosis • Resolution and recovery • Incident ownership, monitoring, tracking, and communication. <p>See the incident management table for full details.</p>

Application Support

GroupCall Messenger	<p>Full support for all items listed below where in use</p> <ul style="list-style-type: none"> • User Management • Account Settings • MIS settings for integration • Address Book • Whole School Alert • Management of Contacts • Messaging Templates • Absence Messaging • Advanced Messaging • User Defined Group messages • Message History • Attendance Data • Usage Reporting • Sync updates
MIS Integration	<ul style="list-style-type: none"> • *Identification and where possible, correction of software and user errors affecting MIS integration with GroupCall Messenger. <p>* For MIS not supported by Cantium, support will be given on an advice-only basis and no changes will be made to the MIS</p>
Support Notification	<p>We will ensure you remain fully informed in the following format:</p> <ul style="list-style-type: none"> • Customer Portal alert and banner for service announcements • Customer Portal bulletin alert for changes and updates • Information Notices provided via the portal knowledgebase • Newsletters

Access by Cantium Business Solutions Staff:

It will be necessary for Cantium to hold a Cantium support user account with administrator access rights to the system being supported. This is to ensure that we offer quick and efficient diagnoses and support to your school. Passwords will be stored securely with access only to those Cantium staff who are working on your systems.

Support will be provided using remote access where possible.

Incident Management

For service incidents (service not available or service degradation) the following target response times will apply, based on business impact:

Priority	Response Target	Description
P1	1 Business Hour	Complete loss of service Staff will use best endeavours to respond to the end user and/or the customer with a temporary or permanent resolution within four (4) working hours of receiving notice of a critical problem being reported.
P2	1 Business Hour	An issue that results in a degradation/loss of service affecting over 50% of users.
P3	8 Business Hours	An issue that results in a degradation/loss of service affecting one user.
P4	5 Business Days	A non-service affecting issue

Service Requests

All requests will be processed by the Cantium Service Desk with a fulfilment target of 10 days unless otherwise specified.

Services Not Included (out of scope)

For the purposes of clarity, the following services are considered out of scope of this agreement and are available at additional cost:

- Application Support beyond points listed above
- Network or hosted platform support
- Desktop and Infrastructure support
- Hardware and component replacements
- Project Management
- ICT training and user education
- Technical integration
- Installations, equipment moves, additions and changes
- Policy, process and standards
- IT Service Management consultancy
- External website hosting
- Security Investigations

Customer Responsibilities

Customer responsibilities and/or requirements in support of this Agreement include:

- Ensure users are trained in the correct use of GroupCall Messenger
- Use the defined processes for raising incidents and service requests
- Respond to requests from Cantium staff, in relation to a current incident or service request
- Nominate a lead contact with suitable authority to provide liaison between Cantium and the Customer for matters relating to the service
- Data Management in accordance with the customer data retention policy and General Data Protection Regulations (GDPR).

Service Provider Responsibilities

Service Provider responsibilities and/or requirements in support of this Agreement include:

- Cantium will advise the Customer of any circumstances that may adversely affect the level of the service being provided
- When a service interruption happens, Cantium will respond in line with the documented incident management priority levels to restore the service, and will work as required with 3rd party suppliers to enable this to happen
- Cantium will, where appropriate, advise the customer of works attributable to a third-party supplier such as upgrades, notifiable defects and documentation.

General Data Protection Rules

Please refer to Annex A attached for data management rules applicable to this contractual agreement.

For the purposes of this agreement the following party will be responsible for adherence to the legislation referred in Annex A:

1. Data Controller: Customer
2. Data Processor: Cantium Business Solutions
3. Sub Processor: GroupCall

Service Feedback

Cantium Business Solutions endeavours to make its service the best that it can always be.

We therefore encourage and appreciate all feedback you may wish to present us with, both positive and negative.

Where possible, would aim to rectify any problems you incur to a level that meets both our high expectations, although we do recognise that on occasion may not be possible. Please be assured that your feedback will be taken seriously. Often, we will be able to resolve problems face to face or by telephone. If you feel that this is not possible then you can put your feedback in writing.

Please find the link to our Compliments and Complaints Policy which details how to do this and what you can expect from us:

[Compliments and Complaints Policy](#)

Should you wish to discuss any aspect of Cantium service, please use the following escalation path:

1. Service Delivery Manager
2. Head of Service Management
3. Head of ICT

Additional Services

Cantium Business Solutions offer a complete suite of business management tools. These solutions are based around improving your cost effectiveness and efficiencies within ICT, Finance and HR business sectors.
